SKILLS

• Languages:	Python, C, C++, JavaScript, SQL
• Data & AI:	Data Analysis, NumPy, Pandas, Matplotlib, Applied AI Concepts, Structured Problem-Solving
• Technologies:	HTML, CSS, Arduino, Canva
• Databases/Tools:	MySQL, MongoDB, Git, GitHub, Figma
• Soft Skills:	Problem-Solving, Leadership, Teamwork & Collaboration, Adaptability, Communication

PROJECTS

Food Freshness & Spoilage Detection System Arduino Team Project	Dec 2025 - Jan 2026
- Developed a food freshness monitoring system to detect spoilage in fruits, vegetables, and other food items. - Implemented sensor-based threshold logic to classify food conditions as Safe, Caution, or Danger. - Integrated an MQ gas sensor, DHT11, RTC, buzzer, LED, and HC-05 Bluetooth module with Arduino. - Enabled real-time mobile alerts for unsafe food conditions.	
Stone-Paper-Scissor Python GitHub	Dec 2025
- Built a command-line Stone-Paper-Scissor game in Python with interactive user input and computer-generated moves. - Implemented game logic to determine win, loss, and draw outcomes based on player and computer choices. - Implemented a continuous game loop to support multiple rounds in a single session.	
Digital Clock HTML, CSS, JavaScript GitHub	Dec 2025
- Developed a real-time digital clock using JavaScript to dynamically display the current hours, minutes, and seconds. - Implemented continuous time updates to ensure the clock remains synchronized with the user's current system time. - Designed a responsive and visually clean interface using HTML and CSS.	

CERTIFICATES

• Mechanics & Physics Fundamentals Saylor Academy View Certificate	Feb 2026
--	----------

ACHIEVEMENTS

- Achieved the highest O grade in Mathematics in both completed semesters. - Solved 30+ coding problems on LeetCode, strengthening algorithmic problem-solving skills. - Built and independently developed 2 functional Python projects, including one deployed live for public access.	
---	--

EXTRA-CURRICULAR ACHIEVEMENTS

- Won 3 bronze medals in competitive chess tournaments at the district level Ambala. - Formed- and led the school chess team for 3 years, helping the team progress from regional to district-level competition. - Represented Ambala district at the Haryana state-level chess competition. - Competed in boxing at the district level Ambala.

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology — Computer Science and Engineering (AI and Data Analytics)	Aug 2025 – Present
CGPA: 8.91	
Govt. Model Public School	Naraingarh, Haryana
Higher Secondary Education (Class 12)	May 2024 – Mar 2025
Percentage: 82%	
D.A.V Public School	Naraingarh, Haryana
Secondary Education (Class 10)	May 2022 – Mar 2023
Percentage: 88%
